RSC priorities pass in the NDAA

WASHINGTON, DC – Republican Study Committee Chairman Kevin Hern (OK-01) released the following statement after HR 2670, the National Defense Authorization Act for Fiscal Year 2024, passed the House.

"The goal of the RSC is to make each bill that goes to the floor as conservative as possible while still being able to get 218 votes," *said Chairman Hern.* "With this NDAA, conservatives fought for and secured a long list of key reforms. Biden has injected our military with woke ideology at the expense of our national security. His policies have weakened our military and made the world a more dangerous place. We developed a slate of amendments that I'm proud were adopted by the House. These amendments ensure our military is focused on threats from nations like China, Russia, and Iran, not carrying out the left's radical social experiments."

After an extensive amendment process this week, RSC had 24 amendments submitted by 17 Members pass the House, including:

Amendment 413, Rep. Jim Banks (R-IN): This amendment prohibits any funds authorized by the NDAA from going to any entity owned or controlled by the Iranian government or on relevant blacklists.

Amendment 1434, Rep. John Curtis (R-UT): This amendment asks for an assessment of Russia's information operations capabilities and an assessment of current efforts taken by the Department of Defense and allied and partner militaries' information operations components to target and otherwise coordinate efforts against Russian military information operations.

Amendment 1435, Rep. John Curtis (R-UT): This amendment asks for a report on the sophistication of Iranian missile capabilities and details of Iranian ballistic missile testing.

Bob Good (R-VA): This amendment requires a report by the Secretary of Defense within one year of enactment on the extent to which Communist China has benefited from taxpayer funded research. This report would include a list of United States Government-funded entities, such as research institutions, laboratories, and institutions of higher education, which have hired Chinese nationals or allowed Chinese nationals to conduct research, including an estimate in the number of nationals hired or involved in research projects.

Before the bill came to the House floor, Members of RSC worked hard to include conservative priorities at the House Armed Services Committee markup. Amendments made in Committee to strengthen our position against China, Iran, and Russia were included in the legislation.
